Recombinant Proteins

MedChemExpress (MCE) offers a comprehensive catalog of recombinant proteins with excellent lot-to-lot consistency, superior activity and significantly low endotoxin levels for a variety of applications, including cell growth and differentiation, cell signaling, studies involving disease onset and progression and biopharmaceutical target discovery, protein structure and function analysis.

Advantages

• Broad Categories:	Interleukins, interferons, tumor necrosis factors, colony stimulating factors, growth factors, chemokines and others.
• Low Endotoxin Levels:	Measured by LAL assay.
• High Purity:	Tested by SDS-PAGE & HPLC.
• Superior Biological Activity:	Validated by relevant in vitro or in vivo assays.
• Excellent Lot-to-Lot Consistency:	Confirmed by Lot-to-Lot data
• Full Range Sizes:	Different pre-packaged sizes for various needs
• Competitive Price:	Superb quality with a reasonable price

This promotion is not available for Recombinant Protein Customization Service.
